Candles to Light Up Your Life....

Spring/Summer
2012

Here is a look at Laura making some of her candles. She built her quaint candle studio on her farm in MN.

Starting in 2012, Laura is going to look for people who want to own their own candle business selling her candles. She only wants a few people in each state.

Work from home with a \$99 or \$199 candle kit & earn an est. \$24-\$58 per hour. Contact me if you are interested in becoming one of our first candle consultants. Sell at art fairs, private shows and more. You are in business for yourself, but not by yourself.

So much research and development has gone into Laura's excellent candle "formula". Her candles burn longer, smell stronger than any you will ever find and they are not made on an assembly line overseas. Each one is hand wicked, hand poured & then caked individually and decorated. Laura studies the ingredients in bakery recipes, wines, coffees and even flowers and mixes her own oils to match these fragrances. You are not paying "down lines" or paying for salesman's trips. Her candles come directly from her studio to you. Each candle is a true work of art, one being just a little bit different from another ~ like snowflakes!

The pictures above show Laura starting to pour a batch of candles. The candle at the left is one of her personal favorites. A Cake Candle appropriately named "Motherload". It has three different scents in ONE candle. Crème Brule, Shortbread Cookie and Maple Pecan. Try one! Your home will smell so yummy!

Candle Burning Instructions

1. Your first Burn time on your candle is important. Burn the candle an hour per inch in diameter. If the candle is 3" then EVERY TIME you burn it, burn it 3 hours. This avoids "tunneling".
2. To prevent smoking, KEEP YOUR WICK TRIMMED to ¼ of an inch at all times, never let the flame get higher than ½". Monitor your flame/wick while the candle is burning.
3. Keep the wick straight and centered. This will ensure a nice even burn throughout the lifetime of your candle. JAR CANDLES should be stopped when there is ½" wax left at the bottom.
4. Do not leave a burning candle unattended. Pillar, or free standing candles, should be burned only until the wax pool reaches about 1/4" from the edge of the candle. Use the hour per inch rule. At that point, put the candle out and let the wax harden, and start all over again.
5. If your wick "mushrooms" the wick was probably too long as it was burning. Just extinguish it, trim it to ¼" and relight it.
6. Rotate your candle every so often. Keep out of drafts.
7. Remove any external trimmings or decorations before burning your candle.
8. To extinguish your candle use a wick dipper. This is the smokeless way to put out a candle.
9. Keep candles out of reach of children and pets. Keep a free standing pillar candle on a pan.
10. To prevent fading, keep your artistic candle out of direct sunlight.

Delivery Time

Since each candle is freshly hand made by Laura, your order will be shipped in about 2-3 weeks directly to your hostess who will distribute your candles to you. Order plenty of them for yourself and for gifts!

FRAGRANCES

Refer to these two pages as you look through this catalog. They will explain the scent that you will be purchasing in Cake Candles, Deco Candles, Jars, Melting Tarts and Votives.

HOW TO CHOOSE A CANDLE:

1. Smell the scent in the Fragrance Towers.
2. Look at the picture of the candle and
3. Read the description of your candle scent here.

TIPS:

1. If you purchase a seasonal candle with a decoration on the front of it, after the season is over either put it away for the next year or just turn it around and it will look plain , but colorful and pretty , and burn it all year.
2. When your candle has burned down to a shell of its former self, crack up the wax and reuse the fragrant chunks by melting them in a wax warming lamp.

Happy Sniffing!

FAVORITES:

1. **APPLE PIE/barn red:** Smells like fresh cut sweet apples with lots of nutmeg and cinnamon. The CAKE CANDLE is tied with homespun fabric and an apple slice
2. **BLUEBERRY COBBLER/ivory:** Juicy blueberries with fresh ground cinnamon. The CAKE CANDLE is drizzled with fresh blueberry sauce.
3. **CRANBERRY/red:** A mixture of crisp sweet berries, blended with a stronger cranberry zest.
4. **CREAMSICLE/orange:** Just like the ice cream bar, bright orange with a creamy white center.
5. **CRÈME BRULEE/golden mustard:** Smells like rich vanilla custard drenched with buttery caramel sauce.
6. **FRENCH VANILLA COFFEE/white:** Sugary vanilla with just the right amount of fresh brewed coffee. The fluffy white CAKE CANDLE is drizzled in a rich mocha.
7. **GREEN APPLE/granny smith green:** Imagine biting into a fresh, crisp, juicy, tart Granny Smith apple with a “side” of Jolly Green Rancher candy ~ that is what this candle smells like. It is the same color as the apple but drizzled with dark green & white frosting.
8. **LEMON CHIFFON/soft yellow:** The aroma of fresh baked lemon zest in a custard pie.
9. **MOTHERLOAD/tri-colored, golden mustard, ivory & maple:** OH YUM! Three candles in one! Crème Brulee, Shortbread Cookie & Maple Pecan. This is the “mother” of all candles. As the candle burns to the next scent, you will smell the difference, but all compliment each other. Not available in votives, tarts or deco pillars.

10. **RASPBERRY COBBLER/Ivory:** The CAKE CANDLE is topped off with a raspberry sauce drizzle. Fresh picked raspberries mixed with a butter cake crust will fill your entire home with its delicious scent.

SPRING & SUMMER SCENTS:

11. **ANGEL LUSH CAKE/white:** A delectable dessert candle. A blend of our blueberry, strawberry and raspberry smothered in our shortbread cookie. The CAKE CANDLE is topped with blueberries and double drizzled with strawberry & raspberry sauce. Not available in tarts, votives, soy jars or deco pillars.

12. **BAHAMA BREEZE/lt. plum:** Fresh pineapple, mangos, papaya, coconut and watermelon. It's like a tropical vacation in a candle.

13. **BROWN SUGAR & FIG/dk. Brown:** Fresh figs, peaches and passion fruit with a blending of coconut milk, vanilla beans, maple sugar and musk.

14. **CLEAN COTTON/white:** Clothes line fresh. Great all year and even in the stuffy rooms of winter.

15. **LIME COOLER/lime green:** Tart lime with refreshing hints of orange and crisp apple.

16. **LILAC/lilac:** The sweet smell of lilacs blooming in the spring.

17. **LOVE SPELL/periwinkle:** A Victoria's Secret original, a sweet soft medley of orange, peach, strawberry & raspberry.

18. **OCEAN MIST/lt. blue:** Loved by men & women. White musk, oak moss, carnations & lily of the valley. This fresh scent will help you float away to your favorite relaxing spot.

19. **PINEAPPLE CILANTRO/yellow:** Fresh pineapple with a hint of cilantro.

20. **RASPBERRY LEMONADE/pale pink:** A pile of juicy red raspberries, a hint of cherry and fresh squeezed lemons make this the perfect summer candle.

21. **STRAWBERRY SHORTCAKE/pink:** Ruby red strawberries surrounded in our shortbread cookie. The CAKE CANDLE is topped with whipped cream & strawberries. Not available in tarts, votives, soy jars or deco pillars.

22. **TWILIGHT/melon:** One of Laura's personal favorites! A soft medley of musk, moss & patchouli. Not flowery or foodie, but a very sexy blend.

23. **WATERMELON/green:** Fresh cut watermelon. Green rind with a fleshy pink interior.

24. **WHITE TEA & BERRIES/lt. tan:** A blend of herbal tea, dew covered raspberries, blackberries and elderberries.

25. **WILD CURRANT & SANDALWOOD/ivory:** An amazing combination of wild currants, blackberries and soft sandalwood and vanilla.
